-Comparaison France et Suède

La France, qui a confiné, a plus de décès covid19 par million que la Suède, qui n'a pas confiné.

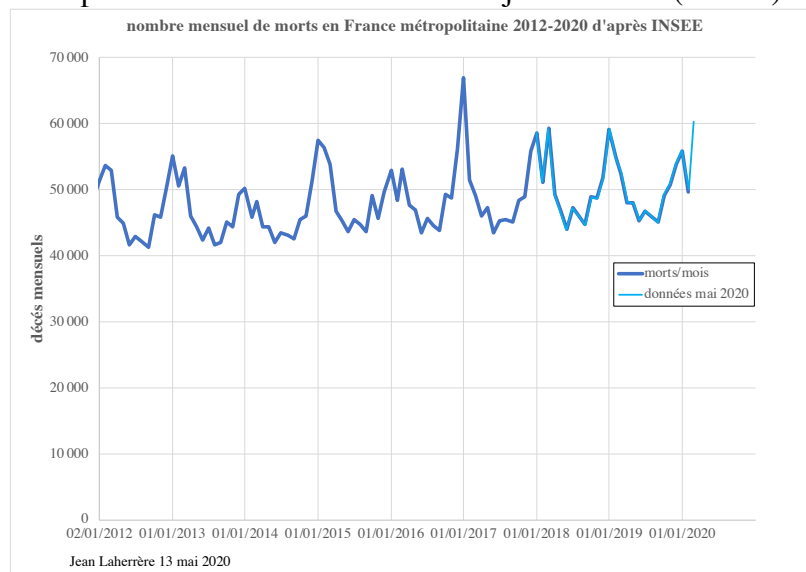

-Comparaison France décès journalier : tous INSEE et covid19

Insee vient de publier les décès journaliers depuis le 1^{er} mars au 27 avril. Le pic du pourcentage covid/tous est de 35 % et a décliné à 25% le 27 avril

Les décès mensuels pour mars 2020 sont inférieurs à janvier 2017 (66 990)

Ceux jusqu'au 27 avril extrapolés à fin avril ne devrait pas dépasser $59600 + 4500 = 65\,000$
